EDUCATION:

Bachelor of Technology (B.Tech.) - Computer Science *Sep 2022 - June 2026*
Vellore Institute of Technology (B.TECH CSE)
Cumulative GPA - 7.48

SKILLS:

- **Business Operations:** Consultative Advisory, User Intent Analysis, Need Analysis , Pipeline Management, Ethical Pitching, Persuasive Selling, Career Roadmap Planning, Psychology of Learning, Relationship Building, Stakeholder Management, Problem-Solving**.**
- **Analytical skills:** Data Interpretation, data analytics, Conversion Optimization, Market Analysis.
- **Tools**: Microsoft Office(Excel, PowerPoint, Word), Google Sheets, Google Slides, PowerBI,

PROJECTS:

- **CivicHelp AI** *Dec 2025 – Feb 2026*
  - Conceptualized the project workflow a multimodal GenAI pipeline and coordinating tasks to automate civic grievance redressal ensuring smooth integration and delivery.
  - Managed the full development lifecycle from data ingestion (10K+ records) to deployment, prioritizing features based on municipal urgency and impact.
  - Implemented RAG-based policy grounding to translate civic complaint requirements into technical specifications reducing misinformation risk and improving action recommendation reliability by 30%.
  - Monitored performance metrics, predicted rising civic trends and urgency via integrated detection tools and documented the improvements, streamlining analysis and improving response efficiency by 35%.
  - Tech Stack: Python, Generative AI, RAG, Scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib.

- **Heart disease detection** *May 2025- Sept 2025*
  - Developed a predictive analytics system for early detection of heart disease by training a dataset of patient's physical and medical characteristics.
  - Improved decision-making using data and optimized various machine learning algorithms while identifying bugs to enhance prediction accuracy and efficiency.
  - Attained a prediction accuracy of more than 85% by analyzing 1000+ dataset entries and built visual reports and performance dashboards to communicate insights enabling structured analysis.
  - Skills Used: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Machine Learning.

- **iMovies** *Nov 2024- Feb 2025*
  - Engineered a full-stack movie ticket booking system supporting secure login, dynamic showtime selection, and interactive seat mapping for seamless user flow.
  - Reduced transaction errors by 40% by implementing real-time availability checks, showcasing an ability to maintain platform integrity and partner trust.
  - Designed responsive UI for browsing and booking, enhancing user satisfaction and engagement by 30%.
  - Managed systems supporting 1,000+ concurrent users, focusing on reliability and seamless service delivery and customer experience.
  - Skills Used: MongoDB, Express.js, React.js, Node.js (MERN Stack), REST APIs, CSS, JavaScript

CO-CURRICULARS:

- **Member, AI Club** | VIT Bhopal 2022 – Present
  - Led high-quality conversations to understand user intent and student goals, recommending tailored **learning paths** in AI and Data that increased club outreach and enrollment by 40%.
  - Acted as the bridge between learners and real-world outcomes by designing practical workshops that moved students beyond textbooks to build portfolio-ready work and industry-aligned skills.
